Hydraulic Jacks Self Audit Checklist

The following checklist is designed to ensure that the policy is being followed and that appropriate safety protocols are in place for Hydraulic Jacks.

satety protocols are in place for Hydraulic Jacks.				
Department/Facility:				
Building/Work Area: Room(s):				
Initial Training and Supervision		Yes	No	N/A
Are there any hydraulic jacks in your department/facility?				
Examples below:				
Are the employees in this department/facility trained as required Jack?	to use the			
Comments: (include make/model/Serial # of equipment)		l		
osminentos (morado mano, model, ocum // or equipment)				
Servicing and Equipment Safety Checks		Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onsi		Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onsi Is the equipment included in a documented scheduled inspection	/service	Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onsi Is the equipment included in a documented scheduled inspection and maintenance program that meets the manufacturers' recomm	/service nendations?	Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onsi Is the equipment included in a documented scheduled inspection	/service nendations?	Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onside Is the equipment included in a documented scheduled inspection and maintenance program that meets the manufacturers' recommodate the last documented maintenance inspection completed with months?	/service nendations? nin the last 6	Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onside Is the equipment included in a documented scheduled inspection and maintenance program that meets the manufacturers' recommend was the last documented maintenance inspection completed with	/service nendations? nin the last 6	Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onside Is the equipment included in a documented scheduled inspection and maintenance program that meets the manufacturers' recommend Was the last documented maintenance inspection completed with months? Do you have training documentation for the use of this equipment.	/service nendations? nin the last 6	Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onside Is the equipment included in a documented scheduled inspection and maintenance program that meets the manufacturers' recomm Was the last documented maintenance inspection completed with months? Do you have training documentation for the use of this equipment Are operators familiar with the equipment's instructions, warning	/service nendations? nin the last 6	Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onside Is the equipment included in a documented scheduled inspection and maintenance program that meets the manufacturers' recommodate Was the last documented maintenance inspection completed with months? Do you have training documentation for the use of this equipment Are operators familiar with the equipment's instructions, warning Is the load rating legible and permanently marked?	/service nendations? nin the last 6	Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onside in the equipment included in a documented scheduled inspection and maintenance program that meets the manufacturers' recomm Was the last documented maintenance inspection completed with months? Do you have training documentation for the use of this equipment Are operators familiar with the equipment's instructions, warning Is the load rating legible and permanently marked? Is the equipment lubricated at regular intervals?	/service nendations? nin the last 6	Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onside in the equipment included in a documented scheduled inspection and maintenance program that meets the manufacturers' recomm Was the last documented maintenance inspection completed with months? Do you have training documentation for the use of this equipment Are operators familiar with the equipment's instructions, warning Is the load rating legible and permanently marked? Is the equipment lubricated at regular intervals? Are all loads cribbed, blocked or otherwise secured once raised? Are employees inspecting equipment prior to each use? Are repairs and replacement parts examined for defects?	/service nendations? nin the last 6	Yes	No	N/A
Are copies of the manufacturer's manuals for the equipment onside in the equipment included in a documented scheduled inspection and maintenance program that meets the manufacturers' recommodate with months? Do you have training documentation for the use of this equipment is the load rating legible and permanently marked? Is the equipment lubricated at regular intervals? Are all loads cribbed, blocked or otherwise secured once raised? Are employees inspecting equipment prior to each use?	/service nendations? nin the last 6	Yes	No	N/A
